

SURVICE Engineering is looking to hire two full time, mid to senior level EMC/EMI Engineers for a multi-year, multi-million dollar Air Force program at Eglin AFB in Florida's Gulf Coast. This is the beginning of this 5 year follow on effort which is budgeted to run through 2022. The EMI/EMC Engineer will support the AFSEO Evaluate Compatibility and Technical Advice process by preparing and assisting in testing and collecting EMC/EMI test results, analyzing EMC/EMI test results, preparing test reports for assigned EMC/EMI test programs, conducting EMC/EMI studies and analyses, and using Computational Electromagnetics Modeling and Simulation in a collaborative team environment.

The link to the job description is below for your reference along with additional pertinent information. In the meantime, please feel free to promote or distribute it to anyone you think may be interested. Also, Interested candidates can contact me directly for more information or for an interview, as we are looking to fill these positions immediately.
