We hope to see you at our annual event. Our Board of Directors and volunteers have worked very hard to make this annual event a success and we hope the time that you spend with us is valuable to you and your company. - **Frank Krozel, 2017 MiniSymposium Chairman**

Kenneth Wyatt

Kenneth Wyatt is President and principle consultant of Wyatt Technical Services LLC, as well as the senior technical editor for Interference Technology. He has worked in the field of EMC engineering for over 30 years. His specialty is EMI troubleshooting and pre-compliance testing and is a co-author of the popular *EMC Pocket Guide* and *RFI Radio Frequency Interference Pocket Guide*. He also coauthored the book with Patrick André, *EMI Troubleshooting Cookbook for Product Designers*, with forward by Henry Ott. He is widely published and authored *The EMC Blog* hosted by EDN.com for nearly three years. Kenneth is a senior member of the IEEE and a long time member of the EMC Society. The Chicago
Chapter of the
IEEE EMC Society
Presents Our

2017 EMC
Mini-Symposium

May 9, 2017
Holiday Inn, Itasca

FINAL PROGRAM

How we started...

Some 20 or so years ago, our chapter recognized that although there was an active EMC Society presence locally, the area did not have any shows that were EMC-specific. Although there is a yearly International Symposium, most local people did not attend because of budgets etc. A close group of us got together and started what eventually became this annual event. It is interesting that that same core group of people have also been on the Board of Directors for over 20 years now, and through their efforts, we have organized two major International IEEE EMC Symposiums in Chicago, and to this day, are still active in the local IEEE EMC Society chapter.. You will find most all of them listed on the back panel as our Board of Directors.

Additional Support

This program could not have been a success without our many volunteers. Do thank them for their efforts to make this yearly event a success.
