

Invest in Science. Invest in Children.

Through the Science Kits for Public Library Program, local children are given the chance to experience the exhilaration of discovery and the excitement of engineering. With your donation, you can help spark a lifelong journey of scientific learning for the next generation of innovators and engineers.

\$2,000 funds a local library Science Kit Start-Up Collection

\$200 buys a Van de Graff Generator

\$100 funds a Telescope Kit

\$50 purchases a 75-in-One Electronics Lab, including circuits

\$25 buys a cross section model of the Earth
